## The Pathways Foundation — Bridging the Learning Gap

The Pathways Foundation (“Pathways”) strives to help children with dyslexia to bridge the learning gap, rekindle their interest in learning, and build self-confidence through professional and evidence-based intervention programmes.

Established in 2001, we are a registered charitable organisation in Hong Kong, currently operating two learning centres in Kowloon and Shatin. Our team consists of specialised subject teachers of Chinese, English, Mathematics and Early Literacy Support, as well as allied professionals including clinical psychologists, educational psychologists, occupational therapists and speech therapists. They collaborate to serve hundreds of students with dyslexia each year through individualised and continued after-school or in-school intervention programmes, along with professional assessments and therapy services. In addition, we organise regular parent seminars and activities to share with the public current knowledge on reading difficulties, and insights into the teaching and learning of children with dyslexia.

為配合學校需要，博思會老師及職業或言語治療師可親自到訪中小學，提供到校支援讀寫障礙學生服務，範圍包括中文、英文、數學專科支援、職業治療服務及言語治療服務。博思會與學校緊密合作，設計合適的支援方案，協助老師們照顧學習困難學生。

In order to cope with the needs of the schools, Pathways' teachers and occupational or speech therapists provide in school support services to students with dyslexia in primary and secondary schools. Service scope includes intervention programmes for Chinese, English and Mathematics, occupational therapy and speech therapy. Pathways works closely with the schools to develop appropriate support programmes in line with the needs of the schools and students.

## 教師培訓 Teacher Training

博思會可為不同教育機構舉行老師培訓工作坊，由博思會資深老師協助學校老師認識讀寫障礙及了解相關的支援方法，並提供相關教學支援。

服務對象由幼稚園、小學至中學的教師，除了支援本港教師外，博思會亦曾到澳門提供教師培訓，共同為有學習困難的學生作出更好的教學安排。

Pathways organises training workshops for different educational institutions. Senior teachers of Pathways assist school teachers in understanding dyslexia and the related supporting methods, as well as provide related teaching support.

The service targets range from kindergarten, primary school to secondary school teachers. In addition to supporting local teachers, Pathways has also provided teacher training in Macau, joining hands with them to improve teaching arrangements for students with learning difficulties.

## 家長教育 Parent Education

詳情 Details

博思會可與學校家長及教師會舉辦一系列家長教育講座，針對讀寫障礙的識別與介入支援，家長亦有機會與專家交流。

為加強家長「早期識別、盡早支援」概念，幫助有早期讀寫困難的學童，博思會走訪了不同的幼稚園，為新手家長們講解何謂讀寫障礙，並如何以繪本導讀提升兒童對學習語文的興趣。

Pathways can work together with parent-teacher associations to provide a series of parent education seminars, focusing on identification and intervention support for dyslexia. Parents can also have interactions with the experts.

In order to strengthen parents' concept on "early identification and early support" for children with early learning difficulties, Pathways made visits to kindergartens to explain to novice parents about dyslexia, and shared tactics on how to use picture books to enhance children's interest in learning Chinese.

# CASE 實例

## 博愛醫院陳楷紀念中學

自2015年起，博思會作為合作伙伴，與該校英文老師共同設計課程及教材套，並通過觀課、示範教學及課後討論，與老師分享有關教授讀寫障礙或英文能力稍遜的學生之技巧。

學校在常規上課時間內開設支援班，每班18人，分中一及中二組。每學年共15節，主要以活動及遊戲方式學習英文，包括拼音、發音及文法等，期望學生可以活學活用。

「我們察覺有些同學的學習心態改善了，由從前的『交白卷』，到現在會嘗試完成所有問題。」 - 英文科何愷敏老師

「從同學的問卷調查回應中，部分學生顯露其自信心，懂得掌握拼音技巧，會覺得自己是做得到！」 - 特殊教育需要統籌主任周穎怡老師

## Pok Oi Hospital Chan Kai Memorial College

Since 2015, Pathways has partnered with the school's English teachers to design courses and teaching kits, and shared with them the skills of teaching students who are dyslexic or with poor English abilities through class observation, modelling and after-class discussions.

Support classes are scheduled during regular school hours. Two groups, each with 18 students, are arranged for S1 and S2 students separately. During the 15 sessions in each academic year, students learn English phonics, pronunciation and grammar through activities and games, a motivator for them to use the language in their daily lives.

*"We noticed that the learning attitude has improved in some students. Previously they just handed in blank sheets; now they attempt to complete all questions."* - Miss Portia Ho, English teacher

*"Responses from students' surveys showed that some students have increased self-confidence after mastering their phonic skills; they feel that they can do it!"*  
- Miss Catherine Chow, Special Education Needs Coordinator
